

CLINICAL PRACTICE GUIDELINES

Keystone First VIP Choice has adopted clinical practice guidelines for use in guiding the treatment of plan members, with the goal of reducing unnecessary variations in care. The following clinical practice guidelines represent current professional standards, supported by scientific evidence and research. These guidelines are intended to inform, not replace, a physician's clinical judgment. The physician remains responsible for determining applicable treatment for each individual.

*This list of CPGs was reviewed and approved by UMC on 12/16/2024.
